

Is the **Help America Vote Act** being fully implemented in your state?
Has HAVA reached ALL of your polling sites?

If you think your polling sites meet federal accessibility guidelines, but want to make sure...
we can help!

The Catskill Center for Independence has created a DVD that takes the viewer step by step through an actual polling site assessment. Our DVD, "Ready, Set, Vote!!" demonstrates the tools you will need, how to measure various parking and building features, typical and not-so-typical barriers to look for and suggestions for making complete reports.

Ensure access and make sure we all HAVA vote!
